Eolus has signed an agreement to sell the 100 MW/400 MWh stand-alone battery energy storage project, Pome, located in Poway, CA, ...

It is planned to have an installed capacity of 600,000 kW of wind power, 400,000 kW of photovoltaic power, and 1,000,000 kWh of ...

It is planned to have an installed capacity of 600,000 kW of wind power, 400,000 kW of photovoltaic power, and 1,000,000 kWh of energy storage, making it the world's largest ...

NYCIDA closed its largest battery energy storage project to date, the East River Energy Storage Project, located on an industrial site on the East River in Astoria, Queens. ...

Swedish renewable energy developer Eolus has reached an agreement with a privately held US renewable energy producer to sell its Pome battery energy storage project in ...

Swedish renewable energy developer Eolus has reached an agreement with a privately held US renewable energy producer to sell its ...

Eolus has signed an agreement to sell the 100 MW/400 MWh stand-alone battery energy storage project, Pome, located in Poway, CA, U.S. The project is currently under ...

The first phase of Datang Group's 100 MW/200 MWh sodium-ion energy storage project in Qianjiang, Hubei Province, was connected to the grid.

The first 100MW-level hybrid energy storage frequency regulation project in China--the 100MW/50.43MWh independent hybrid energy storage project of StateCloud Microcontrol ...
