Built on OpenBlue and powered by Microsoft Azure, this solution integrated Digital Twin technology to provide real-time operational oversight, predictive maintenance, and ...

The recently operational Bisha battery energy storage project features 488 advanced battery containers with a storage capacity of 500 MW for a duration of four hours.

Eaton's xStorage Buildings energy storage system meets the back-up power requirements of stadiums, usually provided for by UPS systems and diesel generators.

With a single energy storage installation capable of storing 500 kilowatt-hours (kWh) of energy, stadiums can ensure uninterrupted power supply throughout the event.

Riyadh's Qiddiya Arena saved the match using stored solar energy from its parking lot panels. The stadium's 40MWh battery system kept floodlights blazing while the national grid recovered.
