This groundbreaking project will address the increasing need for reliable and flexible energy storage solutions, providing critical support for Greece's grid and improving ...

Polish private utility Polenergia (WSE:PEP) has agreed to receive co-financing from the national eco-fund, equal to 45% of the costs of a 50-MW battery energy storage system ...

System integrator Ameresco will build a maximum 50MW/200MWh battery energy storage system (BESS) in partnership with Silicon Valley Power (SVP), the non-profit utility of ...

Ameresco recently announced the development and commercial operation of a 50-MW/200 MWh battery energy storage system (BESS), the largest behind-the-meter (BTM) ...

The Battery Energy Storage System (BESS) is the largest behind-the-meter (BTM) project in Arizona and ranks as the fourth largest BTM installation in the United States, setting ...

The pilot project will be installed at SRP's Copper Crossing Energy and Research Center in Florence, Arizona and sell capacity to ...

We're excited to announce that a 50MW/100MWh centralized (shared) energy storage power station project in Hubei Province has been successfully connected to the grid.

A new \$51 million Tesla Megapack battery energy storage system is now operational in Kingman, Arizona. Developed by Ameresco, Inc., the 50 MW/200 MWh ...

Ameresco, a leading energy solutions provider committed to accelerating the clean energy transition, has announced the development and commercial operation of a 50MW/200 MWh ...
