-----

China lithium-ion battery cells for energy storage tipped to jump 75% this year China dominates production as global, domestic demand climb Surge driven by data centres, ...

The combination of clear funding rules, broad eligibility, and strong EU support makes the BESS Spain program a key driver for battery storage expansion in Spain.

Crepower lifepo4 battery packs has stackable/wall design, for low voltage and high voltage hybrid inverters, with rack, cables and accessories ready for installation.

Renewable generation is now joined by storage projects, and Spain occupies a prominent place as the country with the second largest projected capacity for stand-alone ...

Spain has taken a decisive step in strengthening its energy infrastructure with the launch of a EUR700 million support scheme aimed at expanding large-scale energy storage ...

This move responds to the large-scale blackout incident experienced by the country in April this year. The Spanish Battery Energy Storage Association (AEPIBAL) stated that the ...

CATL flooded the domestic market with inexpensive, efficient batteries. It wants to do the same overseas, but European politicians--and Donald Trump--stand in its way.

This move responds to the large-scale blackout incident experienced by the country in April this year. The Spanish Battery Energy ...

Spain has taken a decisive step in strengthening its energy infrastructure with the launch of a EUR700 million support scheme aimed at ...

The boom "is one of the biggest surprises of the year, I think, in China's energy space." UBS last month raised its 2026 forecast for global battery-energy storage installations ...

The project, located in Figueruelas near Zaragoza, is being developed by battery giant CATL and automaker Stellantis. Project ...

CATL is the largest EV battery producer in the world. It continues to progress, with the latest news being a factory under construction in Spain and restarting of a lithium mine in ...

The project, located in Figueruelas near Zaragoza, is being developed by battery giant CATL and automaker Stellantis. Project planners say the plant will begin production by ...
