Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

At first, selecting the right mobile solar container can be a bit overwhelming, as there are dozens of configurations, power ratings, battery options, and structural designs to ...

The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or ...

These containers can house batteries for storing excess energy generated from renewable sources such as solar or wind power. They provide a scalable and modular solution for grid ...

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini power station using solar panels.

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency ...

The solar power container stands at the intersection of portability, sustainability, and technological innovation.

It offers a smart, reliable, and eco-friendly alternative to ...

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini ...

EcoDirect offers battery boxes, racks and enclosures for off-grid energy storage applications in solar PV systems. These products support the most common battery types.
