Where are uninterruptible power supplies sourced?

Uninterruptible power supplies are sourced from trusted manufacturers. They're part of our collection of power supply products & protection devices, which protect a load from dangerous changes in power supply.

What is an uninterruptible power supply (UPS)?

Uninterruptible power supply (UPS) devices provide emergency power to an electrical load when the input power source fails. Each UPS (Uninterruptible Power Supply) is engineered to meet different power backup needs, from small office equipment to large data centers. Uninterruptible power supplies are sourced from trusted manufacturers.

Does uninterruptible power supply USP provide surge protection?

Many models of uninterruptible power supply USP also provide surge protection. A surge protector blocks spikes in voltage so that they do not harm your electronics. So, your battery backup is always at work, protecting your desktop computer, network equipment, or other electronic equipment and charging its battery when not in use.

An uninterruptible power supply (UPS) is a type of backup battery that will continue to provide electrical power to the electronics that you have plugged into it even if electricity from your ...

Find uninterruptible power supplies with battery backup, surge protection, and advanced features like AVR to keep your devices running during power disruptions.
