-----

Austria's Climate and Energy Fund has launched a EUR17.9 million tender program for medium-sized electricity storage systems with net capacities of between 51 kWh and 1 MWh. ...

For the first time, an analysis shows how much storage capacity Austria needs on its path to 100% renewable electricity by 2030 ...

Austria's latest subsidy round for solar and storage has sparked overwhelming interest, highlighting how quickly demand for clean ...

Despite variations in population density and industrial structure between states, the recommended split of one-third large-scale and two-thirds small-scale storage can be applied ...

Austria can achieve a fully decarbonized electricity system with strategic storage planning. This paper presents three scenarios (policy, renewables and electrification and ...

Austria's latest subsidy round for solar and storage has sparked overwhelming interest, highlighting how quickly demand for clean energy technologies is accelerating across ...

Despite variations in population density and industrial structure between states, the recommended split of one-third large-scale and two ...

For the first time, an analysis shows how much storage capacity Austria needs on its path to 100% renewable electricity by 2030 and climate neutrality by 2040. Battery storage ...

Austria's Climate and Energy Fund has launched a EUR17.9 million tender program for medium-sized

electricity storage systems with ...

A study 1 carried out by the University of Applied Sciences Technikum Wien, AEE INTEC, BEST and ENFOS presents the market development of energy storage technologies in Austria for ...

The country's Climate and Energy Fund has launched a new call for proposals for "Medium-sized electricity storage systems" of between 51kWh and 1MWh in energy storage ...

A new energy storage study from PV Austria, conducted with Austrian Power Grid (APG), TU Graz, and d-fine, reveals how critical ...

Located in the city of F&#252;rstenfeld in the southern federal state of Styria, the installation plays a fundamental role in stabilizing the power grid and reducing Austria's ...

In this issue, we present several pioneering Austrian projects on heat storage technologies and report on the involvement of Austrian experts in the International Energy Agency's technology ...

A new energy storage study from PV Austria, conducted with Austrian Power Grid (APG), TU Graz, and d-fine, reveals how critical battery energy storage is for Austria to meet its...
