Where is Bandar Seri Begawan located?

Bandar Seri Begawan is located at latitude 4.89035 and longitude 114.94006. It is part of Asia and the northern hemisphere.

How does Bandar Seri Begawan work?

The Marine Department keeps track of use and bills the ship's agent. The Bandar Seri Begawan Municipal Board is credited with the money received from these water sales. Between the city and Victoria Harbour, a passenger boat that also transports mail runs every day (except for Sundays).

What is a curtain wall system?

Its specialty encompasses state of the art facade system such as unitized curtain wall which has much better performance in term of structural, air and water defense as well as ease and safe site installation methodology.

Why do we install solar panels at Balakong & Penang?

By installing solar panels across multiple production facilities and offices at Balakong as well as at Penang, we have lowered our carbon emissions and decreased dependence on non-renewable energy. Our solar panels across all facilities generate 6,500+GJ annually, directly powering production while cutting emissions.
