What is the PV module price index - secondary solar market report?

The third annual (2023) PV Module Price Index - Secondary Solar Market report is now available for download. The PV module price index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional distribution channels, and as a result are listed for resale on the EnergyBin exchange.

How much does a solar module cost?

All Black and Bifacial modules were \$0.261/Wp and \$0.308/Wp respectively. The PV Module Price Index is a resource for solar professionals to accurately track modules traded within the secondary market. This year's report comes with some key changes to portray more precisely what's happening in the market.

How much does non Xinjiang polysilicon cost?

Currently, non-Xinjiang polysilicon with traceability data generally carries a quoted premium of RMB 3-5/kg. Polysilicon prices in dollar terms are prices for polysilicon with non-China origins in dollar terms, not translated from RMB prices.

How much does a resale solar module cost?

For example, N-Type modules by REC listed for resale in May and July pushed up weighted average prices to \$0.411 and \$0.460 respectively. P-Type modules in September increased to \$0.311 as modules by Sirius PV, Solar4America, and Panasonic were remarketed. The same price increase was present in P-Type Bifacials for the month of December.

The PV Module Price Index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional distribution channels, and as a result are listed for ...

SMM brings you current solar photovoltaic equipment or material prices and historical price charts such as

polysilicon prices, silicon wafer prices, battery cell prices, module prices, silicon ...

All solar PV (Photovoltaic) real-time price update, such as Panle/Module, Inverter, Wafer, Cell, and poly / Silicon, and research reports.

The market is currently in the seasonal off-peak period, and the module segment has failed to follow upstream price increases. Therefore, acceptance of price hikes in intermediate ...

The PV Module Price Index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional ...

SMM brings you current solar photovoltaic equipment or material prices and historical price charts such as polysilicon prices, silicon wafer prices, ...

Get the latest insights into solar component prices! This weekly report covers polysilicon, wafers, cells, modules, and solar glass. See how prices are trending for each of ...

Due to cost pressures and policy drivers, module prices may attempt a moderate rise next week, but weak demand and high inventory ...

In the wafer segment, all n-type formats saw notable price hikes - up 4% for 210 mm and as high as 8.9% for 182 mm. Meanwhile, p ...

Due to cost pressures and policy drivers, module prices may attempt a moderate rise next week, but weak demand and high inventory levels will likely cap the increase.

The PV module price index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional ...

InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends ...

The PV module price index presented by EnergyBin tracks and reports on crystalline-silicon (c-Si) module trade within the secondary market. ...

The PV module price index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional distribution channels, and as a result are ...

In the wafer segment, all n-type formats saw notable price hikes - up 4% for 210 mm and as high as 8.9% for

Beiya crystalline silicon solar module price
