---

The plant is expected to open this fall, which will accelerate the implementation of the project. In addition to its strategic importance for the energy sector, the BG EXERON X ...

Bulgaria has started the procedure to create the largest energy storage battery in the country, Energy Minister Zhecho Stankov ...

Lithium-ion battery manufacturer CATL has launched its latest grid-scale BESS product, with 6.25MWh per 20-foot container and zero ...

Energy Minister Zhecho Stankov has inaugurated the EU's largest local power-storage facility near Lovech, Bulgaria, the Energy Ministry announced Thursday.

This significant milestone marks the system as Bulgaria's largest BESS project to date, jointly developed by Kehua and Solarpro, the largest energy EPC company in Eastern Europe and a ...

The plant is expected to open this fall, which will accelerate the implementation of the project. In addition to its strategic importance for ...

BG EXERON X-BESS is a system for electric energy storage in batteries, developed based on patented technology by International ...

BG EXERON X-BESS is a system for electric energy storage in batteries, developed based on patented technology by International Power Supply AD (IPS). The ...

TENER achieves 6.25 MWh capacity in the standard 20-ft TEU container, representing a 30% increase in energy density per unit area and a 20% reduction in the overall ...

Developers of 82 standalone battery storage projects in Bulgaria, for an overall 9.71 GWh in capacity, got approval for EUR 587 ...

The distinction between the nominal capacity and the actual usable effective capacity (6.25MWh) of the TENER container remains to be clarified. This differentiation is crucial for investors to ...

Bulgaria has started the procedure to create the largest energy storage battery in the country, Energy Minister Zhecho Stankov said Wednesday during the opening of the fifth ...

TENER achieves 6.25 MWh capacity in the standard 20-ft TEU container, representing a 30% increase in energy density per unit ...

The battery energy storage system (BESS) market in Bulgaria will experience robust growth by 2030 in the co-located/behind-the-meter (BTM) and front-of-the-meter (FTM) ...

Lithium-ion battery manufacturer CATL has launched its latest grid-scale BESS product, with 6.25MWh per 20-foot container and zero degradation over the first five years, the ...

Developers of 82 standalone battery storage projects in Bulgaria, for an overall 9.71 GWh in capacity, got approval for EUR 587 million in subsidies from the Ministry of Energy.
