What should I do if my BMS system develops a fault?

If your BMS system develops a fault, contact our Service and Maintenance team. In some cases they will be able to dial into your system and provide you with technical assistance to address the issue over the telephone. If the issue requires a site visit by an engineer, this will be arranged. BMS is our business.

What are the benefits of a BMS?

A well maintained BMS brings significant benefits to your building, and business. Given that a well maintained BMS can help reduce your energy consumption by up to 20%, it makes sound financial sense to have a reliable BMS maintenance plan in place.

Is a BMS maintenance plan worth it?

Given that a well maintained BMS can help reduce your energy consumption by up to 20%, it makes sound financial sense to have a reliable BMS maintenance plan in place. Cost savings are most often cited as the guiding principle for establishing a service and maintenance contract, but there are other, more subtle benefits too.
