Is Albania a good place for solar energy?

Albania gets about 2100-2700 hours of sunshine in a year so it has a great potential for solar energy. Solar energy is easily accessible since most energy comes directly or indirectly from the sun. It could be used for heating and lighting homes, commercial, and industrial buildings.

Why does Tirana need Vega Solar?

Furthermore, the country is exposed to drought and often turns to emergency imports. Tirana-based Vega Solar, which develops, installs and maintains rooftop solar power plants, saw an opportunity to contribute to diversification with battery energy storage systems.

Does Albania have a hydropower plant?

Hydropower makes up almost the entire domestic output in Albania, which helps balancing to a point, but it has no pumped storage hydropower plants. Furthermore, the country is exposed to drought and often turns to emergency imports.

Will Vega Solar invest in renewables?

Vega Solar, founded six years ago, earlier said it would pursue large renewables investments. The companies didn't provide any other details. As for the rest of the region that Balkan Green Energy News covers, there is still very little battery production capacity, but several major projects are underway. They include mining investment proposals.

Fortis Energy has begun the construction phase of the 75MW Ersek's solar PV project in Albania, which is co-located with a BESS.

As Tirana's skyline transforms with photovoltaic panels faster than a Kor's beer disappears at summer festivals, the city faces a modern dilemma: how to store all that glorious ...
