-----

Chad took an important step toward a sustainable energy future with the inauguration of a new photovoltaic (PV) system installed by Aptech Africa.

Sahel Solar, Inc. is addressing this crisis by harnessing Chad's abundant solar resources to provide clean, affordable energy. The company offers solar home systems, ...

The kits provide home lighting and phone charging and will therefore be supplying electricity to an estimated 6 million people in Chad. Access to ...

An initial shipment of Spark Solar Kits has already arrived in Chad, with a furthermore on the way to the Central African Republic as well. This partnership will help meet ...

The advanced PV system, designed and installed by Aptech Africa, features a standalone ground-mounted 78kWp solar PV minigrid with a 324kWh battery bank storage, ...

As part of the implementation of the Chad Energy Access Expansion Project (PAAET) - part of the Mission 300 initiative - 145,000 solar kits are being distributed at subsidized rates to...

Chad is celebrating the installation and official inauguration of a solar photovoltaic mini-grid system equipped with battery storage.

With support from international donors and development banks, solar microgrids and household systems are being deployed across rural regions--where over 75% of the ...

Chad inaugurated a new 78kWp photovoltaic system installed by Aptech Africa, marking a significant milestone in the country's sustainable energy efforts. The system, ...

The kits provide home lighting and phone charging and will therefore be supplying electricity to an estimated 6 million people in Chad. Access to electricity is transforming the daily lives of ...

Supported by RelyEZ Energy Storage, the Chad solar energy storage project features a 2MW photovoltaic power generation system, a 500kW diesel generator, and a 6.4MWh lithium ...
