The first two phases of Oasis de Atacama, the largest solar power and energy storage project in Latin America, have come on stream in Chile's Antofagasta Region.

There is a place in Chile's Atacama Desert where the power of the sun never seems to set. It is the Quillagua photovoltaic power plant, officially inaugurated on 8 April in ...

According to Contour Global, they are constructing a solar energy storage plant named Vector Jara in the Tarapacá region, which is also supplied by BYD and is expected to ...

Discover how solar and storage projects by Zelestra are shaping Chile's grid, enhancing reliability, and driving Chile's energy transition.

The project is located in Maria Elena municipality, in the Antofagasta region in Chile. It is expected to be one of the country's largest solar and storage projects once fully operational.

In June 2014, the 100- megawatt (MW) Amanecer Solar CAP, a photovoltaic power plant located near Copiapó in the Atacama Desert was inaugurated. It was developed by the company with ...

Since 2022, the plant has been supplying the region with solar power using SMA technology. This is now followed by a 228 MW battery ...

Priority funding is directed toward integrated solar-plus-storage demonstration projects in the Atacama Desert, aiming to accelerate the energy transition in northern Chile. ...

Grid constraints have prevented Chile from maximising the potential of its world-class solar resources. Energy storage has, therefore, ...

Discover how Chile's rugged landscapes and renewable energy potential are driving innovation in outdoor power solutions for mining, agriculture, and emergency services.

Discover how solar and storage projects by Zelestra are shaping Chile's grid, enhancing reliability, and driving Chile's energy ...

The first two phases of Oasis de Atacama, the largest solar power and energy storage project in Latin America, have come on stream ...

Since 2022, the plant has been supplying the region with solar power using SMA technology. This is now followed by a 228 MW battery storage system with a capacity of 918 ...

There is a place in Chile's Atacama Desert where the power of the sun never seems to set. It is the Quillagua photovoltaic power plant, ...

Grid constraints have prevented Chile from maximising the potential of its world-class solar resources. Energy storage has, therefore, become a necessity to ensure the ...
