-----

On December 31, 2025, Sodium Technology announced that its large-format (above 25 Ah) all-solid-state sodium-ion battery cell achieved an energy density of 348.5 ...

As a pivotal player in the global energy storage landscape, China's strategic focus on sodium-ion technology is yielding significant ...

The EV battery giant said its sodium-ion batteries will be used for battery swapping, passenger vehicles, commercial vehicles, and energy storage. CATL Choco-Swap EV battery ...

China just fired up a next-gen battery hub blending lithium and sodium in its latest energy leap. On Sunday, its first lithium-sodium hybrid energy storage station began operation,...

CATL plans large-scale sodium-ion battery deployment in 2026 for swap systems, EVs, and energy storage. Its Naxtra cells offer up to 175 Wh/kg energy density, -40 &#176;C ...

In June 2024, a 100-megawatt-hour sodium-ion energy storage project began operation in Hubei province, representing the first large-scale commercial use of sodium-ion ...

In June 2024, a 100-megawatt-hour sodium-ion energy storage project began operation in Hubei province, representing the first large ...

China just fired up a next-gen battery hub blending lithium and sodium in its latest energy leap. On Sunday, its first lithium-sodium ...

Below is a summary of the top 10 Chinese sodium-ion battery and BESS manufacturers in 2025, representing

the country's most dynamic innovators in sodium-ion energy technology.

China has seen another energy storage project using sodium-ion batteries go into operation, as the new batteries begin to gain wider use in energy storage.

With the pipeline of sodium-ion manufacturing plants relentlessly expanding, Guangde Qingna Technology Co., Ltd. officially ...

China has seen another energy storage project using sodium-ion batteries go into operation, as the new batteries begin to gain wider ...

The development of sodium-ion technology has progressed alongside broader national energy storage and new energy vehicle strategies in China, with related policies and ...

As a pivotal player in the global energy storage landscape, China's strategic focus on sodium-ion technology is yielding significant benefits. Sodium-ion batteries are emerging as ...

With the pipeline of sodium-ion manufacturing plants relentlessly expanding, Guangde Qingna Technology Co., Ltd. officially signed an agreement on Nov. 20 for its 20 ...
