---

Greenwood Energy has reached financial close for the first phase of its 52MWp Terra Site I solar project in Colombia.

With strong natural resources and a government that has passed significant legislation to encourage solar, utility-scale PV is poised for growth. ...

Colombia's solar power sector grew rapidly in 2024. Learn about key rooftop and community projects driving the nation's clean energy transition.

The Colombia Solar Energy Market is expected to reach 2.25 gigawatt in 2025 and grow at a CAGR of 30.45% to reach 8.5 gigawatt by 2030. Enel Green Power Colombia, ...

Independent power producer (IPP) Atlas Renewable Energy has commissioned a 201MW solar PV plant in Colombia. The Shangri-La ...

The Colombian Minister of Mines and Energy, Edwin Palma, attended the inauguration ceremony. Project development began when Atlas Renewable Energy acquired ...

Independent power producer (IPP) Atlas Renewable Energy has commissioned a 201MW solar PV plant in Colombia. The Shangri-La solar project is located in the central-west ...

With strong natural resources and a government that has passed significant legislation to encourage solar, utility-scale PV is poised for growth. However, in order to attract key ...

The Colombia Solar Energy Market is expected to reach 2.25 gigawatt in 2025 and grow at a CAGR of 30.45% to reach 8.5 gigawatt by ...

Located in the Tolima region, Los Venados project will be the first in Colombia for Voltalia. With a total capacity of 19.7 megawatts, powered by more than 33,000 solar panels, ...

This report summarises IRENA analysis to identify favourable zones in Colombia for utility-scale solar PV and onshore wind projects, and their associated techno-economic parameters.

Once it becomes operational, it will be the largest solar park in the country--covering over 900 hectares--and will reinforce the energy matrix with green energy ...

Colombia is advancing its energy transition with 922.8 MW of solar projects currently under construction, signaling strong growth momentum in the country's renewable energy sector.

This report summarises IRENA analysis to identify favourable zones in Colombia for utility-scale solar PV and onshore wind projects, and their ...

Once it becomes operational, it will be the largest solar park in the country--covering over 900 hectares--and will reinforce the energy ...
