-----

Located in the northern Colombia, Enel started construction of two solar PV projects, with 200MW and 199.5MW of capacity, respectively.

Colombia is establishing itself as a solar benchmark in Latin America, thanks to its high solar radiation in regions like the Caribbean, ...

Colombia's national grid is getting stronger in 2025 with 17 new energy projects, mostly solar, boosting capacity and resilience. ...

Located in the Tolima region, Los Venados project will be the first in Colombia for Voltalia. With a total capacity of 19.7 megawatts, powered by more than 33,000 solar panels, ...

In recent Colombia solar news, Enel Green Power has launched new solar plants, adding a collective 99.5 MWdc to the country's energy mix. These projects are part of six ...

Atlas Renewable Energy recently launched the Shangri-La solar project, which is located in Ibagu&#233;, Tolima. It has a capacity of 201 MW, making it one of the largest in Colombia.

Colombia's national grid is getting stronger in 2025 with 17 new energy projects, mostly solar, boosting capacity and resilience. Discover how distributed generation, solar ...

The Guayepo I and II Solar Parks, developed by Enel Green Power, are significant projects in Colombia's energy transition. Located in the Atl&#225;ntico department, these solar parks mark an ...

The firm's newest solar modules, ranging from 460 watts to 665 watts, have passed the strict RETIE test in Colombia. The result opens a fast-growing market to the ...

Colombia is establishing itself as a solar benchmark in Latin America, thanks to its high solar radiation in regions like the Caribbean, the Eastern Plains, and western ...

In recent Colombia solar news, Enel Green Power has launched new solar plants, adding a collective 99.5 MWdc to the ...

From extending solar power to remote rural areas to significant investments in new solar parks, Colombia is positioning itself as a key player in the global solar energy market.

The firm's newest solar modules, ranging from 460 watts to 665 watts, have passed the strict RETIE test in Colombia. The result ...

Colombia's solar power sector grew rapidly in 2024. Learn about key rooftop and community projects driving the nation's clean energy transition.
