What is the energy storage Grand Challenge?

The U.S. Department of Energy's (DOE) Energy Storage Grand Challenge is a comprehensive program that seeks to accelerate the development, commercialization, and utilization of next-generation energy storage technologies.

Where can I buy new and used shipping & storage containers?

Boxhub supplies new and used shipping and storage containers in Los Angeles and across the United States. Our online platform is designed to help individuals and businesses find new shipping, storage, and living solutions that fit their lifestyles and budgets. We work with customers from Chicago to San Antonio and everywhere in between.

Are shipping and storage containers changing the way consumers shop?

Shipping and storage containers in Los Angeles are changing the way consumers shop for their favorite brands. Studio One Eleven created an innovative project in Downtown Bellflower, CA, where they renovated used shipping containers into a new al-fresco food hall. This project has become a leader in the area's revitalization efforts.

Are shipping containers livable in California?

In fact, California is one of the states allowing shipping containers to be renovated into livable spaces-- provided that the project meets state building and zoning codes. You may also need special insurance if you're building a tiny home which would require a meeting with your insurance company.

Additional storage technologies will be added as representative cost and performance metrics are verified. The interactive figure below presents ...
