Will EBRD project help Croatia achieve decarbonisation & energy independence?

The EBRD said the project will contribute to Croatia's goals of decarbonisation and energy independence by reducing reliance on fossil fuels and improving energy system stability amid rising renewable generation.

How much money has the EBRD invested in Croatia?

The EBRD has invested more than EUR5bn in 273 projects in Croatia to date, focusing on supporting reforms, leveraging EU membership benefits, and modernising public-sector enterprises.

How will a digital VPP platform help Croatia's green transition?

The facility will enable real-time balancing of electricity supply and demand through the deployment of a digital VPP platform, enhancing Croatia's grid flexibility as it expands its solar and wind power capacity. "This investment marks a milestone in Croatia's green transition," said Miljan ?drle, EBRD director for Central Europe.

Will the EBRD invest in Croatian pension funds?

Croatian pension funds managed by Raiffeisen will match the EBRD's contribution with an equivalent EUR16.8mn investment, while an additional EUR16.5mn grant will come from the EU Modernisation Fund, the bank said.

Croatia is moving forward with its largest grid-scale battery energy storage project thanks to a new investment from the European Bank for Reconstruction and Development ...

The Croatian battery news came in the wake of plans for a standalone utility-scale battery storage system in Serbia. The office of the Mayor of Leskovac revealed plans for a 125 ...

The European Bank for Reconstruction and Development (EBRD) has announced a direct equity investment

of up to EUR16.8 million in IE-Energy Projekt, a newly established joint ...

Croatia's first battery energy storage facility connected to the national transmission grid is taking shape near ?ibenik, marking a significant step in modernising the country's ...

Croatia's first battery energy storage facility connected to the national transmission grid is taking shape near ?ibenik, marking a ...

The European Bank for Reconstruction and Development (EBRD) is taking a significant step towards enhancing Croatia's energy landscape with a EUR16.8 million investment ...

The development will support the installation of up to 60 megawatts of grid-connected battery storage capacity and the ...

The European Bank for Reconstruction and Development (EBRD) is providing a direct equity investment of up to EUR16.8 million in IE-Energy Projekt, a newly established ...

The development will support the installation of up to 60 megawatts of grid-connected battery storage capacity and the deployment of a VPP platform, allowing real-time ...

In 2022, a contract was signed to deliver battery electric multiple unit (BEMU) prototype and battery multiple unit prototype (BMU) with 6 energy storage devices.

The project involves the construction of a sophisticated 60 MW battery energy storage system (BESS) combined with a virtual power plant (VPP) in ?ibenik.

The EBRD has invested more than EUR5bn in 273 projects in Croatia to date, focusing on supporting reforms, leveraging EU membership benefits, and modernising public-sector enterprises.
