---

As Croatia accelerates its renewable energy adoption, the Croatia Power Company Energy Storage Project emerges as a critical solution to balance supply fluctuations.

By the end of 2021 renewable energy in Croatia is expected to generate around 1060 MW from Wind and Solar alone or around 32% of all energy consumption from renewable energy ...

Central and Eastern Europe (CEE)-based developer and independent power producer (IPP) Woodburn Capital is deploying a co-located battery storage project in Croatia, with final ...

Summary: Explore how Croatia is advancing its energy transition through innovative power generation and storage solutions. Learn about renewable integration, grid stability, and the ...

Today eight out of 10 requests for energy approval are for solar power. The ministry expects the total would reach 8 GW by the end ...

Both projects, located in the southern Dalmatian region near Split, mark the beginning of DRI's ambition to establish up to 500 MW of wind and solar capacity in Croatia by ...

Today eight out of 10 requests for energy approval are for solar power. The ministry expects the total would reach 8 GW by the end of the year. He stressed there are no ...

The Croatian government plans to disburse EUR 651.8 million (USD 675.1m) in grants to support green transition projects in 2025, ...

Both projects, located in the southern Dalmatian region near Split, mark the beginning of DRI's ambition to

establish up to 500 MW of ...

The Croatian government plans to disburse EUR 651.8 million (USD 675.1m) in grants to support green transition projects in 2025, including renewables and energy storage.

Croatia's innovative approach to combining wind, solar, and storage technologies offers valuable lessons for countries transitioning to renewable energy. With its favorable geography and ...

To achieve the 76.7 percent target by 2030, the government will need to simplify regulations--particularly for solar and wind projects. Only four years remain to match the new ...

DRI, the EU renewables arm of Ukrainian private energy company DTEK, announces it will develop a second wind farm in Croatia, the third project in the country. The ...
