On February 21, Cuba inaugurated a solar park in Cotorro, outside the capital, in a ceremony that included China's ambassador to Havana, Hua Xin and Cuban President Miguel Diaz-Canel, ...

A case study in a high-altitude region demonstrates how a 5MWh BESS container powered a village through harsh winters, thanks to its cold-temperature tolerance.

However, this project faces a significant hurdle: the absence of storage batteries, meaning the solar energy can only be utilized during daylight hours, with no provision to meet ...

Mexican authorities announced this Thursday that they have a project with Cuba to soon install solar panels in some Cuban hospitals.

The Cuban government announced that before the end of 2025, there will be 51 photovoltaic parks operating in the country, of which 32 are already synchronized with the ...

Objective: The objective of the study was to value the use of PV sun energy to support the hospital services in Havana. Materials and Methods: Was made a descriptive research about ...

However, this ambitious plan faces a significant hurdle: the absence of batteries necessary for storing generated electricity. Without ...

However, this project faces a significant hurdle: the absence of storage batteries, meaning the solar energy can only be utilized during ...

Chinese and Cuban authorities signed an investment agreement to jointly implement a project to expand the
