Hydrostor secures key permit for 500 MW, 8-hour California energy storage facility The installation would be the Canadian company's first grid-scale deployment of its "advanced ...

In short, distributed energy is a paradigm shift. It's about decentralising power generation by using local, smaller-scale resources. Instead of relying on a few giant plants, we generate power ...

California Distributed Generation Statistics (DGStats) is the California Public Utilities Commission's official public reporting site of all distributed generation projects that are on a ...

Phase 1 of Eland was recently completed and energized with Phase 2's completion expected in early 2025. The Eland project is ...

The Waena battery energy storage system (BESS) is intended to support the planned retirement of four generating units at the company's Kahului Power Plant.

In 2022, the Federal Energy Regulatory Commission issued Order Number 2222 to "better enable distributed energy resources to ...

In December 2024, the first phase of the project was completed. On Tuesday, officials marked the completion of the second ...

In 2022, the Federal Energy Regulatory Commission issued Order Number 2222 to "better enable distributed energy resources to participate in the electricity markets run by ...

Clean energy and energy storage systems need to be connected to the distribution grid through a process known as interconnection. As the number of installations rapidly ...

ConnectM's Keen Labs Introduces Hi-E(TM) Energy Storage Line for Long-Duration and VPP Applications in a \$100 Billion+ Distributed Energy Storage Market

California Distributed Generation Statistics (DGStats) is the California Public Utilities Commission's official public reporting site of all distributed ...

In December 2024, the first phase of the project was completed. On Tuesday, officials marked the completion of the second phase. Both projects interconnect with the power ...

Phase 1 of Eland was recently completed and energized with Phase 2's completion expected in early 2025. The Eland project is forecasted to help L.A. reach 64 ...

This study assesses the economic, environmental, and resilience benefits of Distributed Energy Resources, focusing on solar photovoltaic systems paired with battery ...
