Where will 5G services be available in Dhaka?

It says 5g services will be available in seven areas of Dhaka, Chattogram and Sylhet in the first phase. At the launching, Robi Agiata chief corporate and regulatory officer Shahed Alam shared details of 5G services. He said, "We are assessing customers and checking the efficiency of 5G."

When will 5G start in Bangladesh?

However, the guideline or outline has only been recently completed. During this whole process, concerned government officials had said that 5G services would be launched in Bangladesh by 2021. According to that outline, 5G services were supposed to start in Dhaka, and reach the divisional cities by 2023, and union level by 2026.

Is 5G a good idea for Bangladesh?

He further said that currently, operators in Bangladesh can deliver the required internet speed for general consumers to use. "However, 5G has the ability to significantly transform industrial production processes and factory operations.

Why is 5G still pending in Bangladesh?

Despite the successful trial of 5G services in Bangladesh, its commercial launch is still pending due to the unpreparedness of the market. Guidelines have been formulated, frequencies are ready for allocation, and handsets capable of supporting the service are already being used by consumers.
