How many national parks are in Ecuador?

To begin, we'll cover Ecuador's national parks. They are located in all four areas of the country: Amazon, Andes (sierra), Coast, and Galapagos. There are 11 National Parks in Ecuador. Here they are, arranged alphabetically: So let's talk about each of these parks in a little bit more detail. 1. Cayambe Coca National Park

Why should you visit Ecuador?

Enjoy a diversity of environments, such as rainforest, mountains, dry tropical forest, páramo, tundra, volcanoes, mangroves, islands, and marine areas. Within these reserves and national parks, you can find a fantastic amount of Ecuador's animals and plants.

Is Ecuador a protected country?

Ecuador has protected 19% of the country within a range of reserves and national parks, including the majority of the Galapagos Islands and a couple of other UNESCO-listed areas. Enjoy a diversity of environments, such as rainforest, mountains, dry tropical forest, páramo, tundra, volcanoes, mangroves, islands, and marine areas.

What are the main attractions in Ecuador?

Other features and attractions include different waterfalls, caves, thermal springs, lakes, and rivers. The park is fairly remote but protects the largest amount of Ecuador's highlands. The habitats protected include Ecuador's Andean grasslands, called the páramo, and also Amazon rainforest on the eastern side of the park.
