Who is delivering a battery energy storage system in France?

China's Envision Energy has been selected by Kallista Energy to deliver a 120 MW/240 MWh battery energy storage system (BESS) in Saleux, northern France. The project represents Envision's first independent storage contract in the French market and signals its continued European expansion.

How big is France's energy storage capacity?

Global energy storage capacity was estimated to have reached 36,735MW by the end of 2022 and is forecasted to grow to 353,880MW by 2030. France had 90MW of capacity in 2022 and this is expected to rise to 359MW by 2030. Listed below are the five largest energy storage projects by capacity in France, according to GlobalData's power database.

What is the energy storage industry?

Energy Storage forms part of the Energy industry, which is the 14th most popular industry and market group. If you're interested in the Energy market, also check out the top Energy & Cleantech, Renewable Energy, Recycling, Oil & Gas or Energy Efficiency companies. All-in-one AI-powered energy solution for reliable operations

What is TagEnergy doing in France?

"TagEnergy is proud to announce this flagship project in France, just weeks after connecting the first phase of the Southern Hemisphere's largest wind farm in Australia and the UK's largest transmission-connected battery", said Franck Woitiez, CEO of TagEnergy.

A key project is the Amarenco-Claudia Battery Energy Storage System, a 105 MW lithium-ion storage facility in Gironde, France, with a capacity of 98 MWh, commissioned in 2023.
