The project, which will be developed in partnership with the private sector, forms part of national initiatives to enhance the Kingdom's ...

Bahrain launches a 150MW solar project to supply clean energy to 6,000+ homes, advancing its renewable energy goals and reducing carbon emissions.

The Kingdom of Bahrain has taken several steps towards achieving the Sustainable Development Goals (SDGs) and has aligned its national development agenda ...

The initiative, he noted, will broaden Bahrain's energy mix by accelerating the integration of solar power into routine generation, strengthening grid resilience and delivering ...

The project, located in the southern part of the Kingdom near Bilaj Al Jazayer, marks a major step forward in the country's shift toward renewable energy and environmental sustainability.

Designed to generate enough electricity to power more than 6,000 homes, the initiative is a cornerstone of the Kingdom's strategy to diversify its energy mix and reduce ...

The project, which will be developed in partnership with the private sector, forms part of national initiatives to enhance the Kingdom's reliance on renewable energy sources ...

With rising temperatures and population growth, peak demand has surged by 40% since 2015. The Manama Photovoltaic Energy Storage Project isn't just another solar initiative--it's a grid ...
