Moving our healthcare system into the digital age, better outcomes, controlling and reducing costs, and patient access to their health data. Our monthly HIE rundown includes ...

MTN Group, operating across Africa, deployed over 1,200 solar hybrid sites by 2023, replacing diesel generators with container PV systems that reduce operational costs by 40-60%.

Whether it's a construction site, a disaster relief zone, or an off-grid community, power availability remains a challenge. This is where off-grid containers come into ...

Discover how Higher Wire shipping container solar systems provide reliable, off-grid power for remote worksites and projects.

As a green energy solution, mobile photovoltaic (PV) power stations would act as a long-term alternative. This case study shows use cases from the real world along with ...

Global adoption of Solar Container for Construction is accelerating. Major ports and offshore platforms deploy these units daily. Industrial sites ...

Eleven health systems or providers committed to participate and support patient use, and seven EHRs committed to facilitate data exchange and help "kill the clipboard." In ...

With the rise of electronic health record usage, the need for a standardized way to exchange comprehensive clinical documents between providers -- beyond individual results ...

Whether it's a construction site, a disaster relief zone, or an off-grid community, power availability remains a
