China's first large-capacity sodium-ion battery energy storage station was put into operation on Saturday, marking a milestone in the large-scale application of the new...

Brunei's Vision 2035 plan prioritizes renewable energy integration, and Bandar Seri Begawan is leading the charge. Recent tax incentives for solar-plus-storage projects have ...

The guide is divided into three main sections: construction and installation, commissioning, and operation & maintenance. It covers various aspects such as foundation construction, battery ...

The global solar storage container market is experiencing explosive growth, with demand increasing by over 200% in the past two years. Pre-fabricated containerized solutions now ...

BESS foundation design isn't just about pouring concrete; it's a complex interplay of structural engineering, thermal dynamics, and environmental adaptation. As renewable ...

The government of Kosovo this week announced it will build a battery energy storage system (BESS) with a capacity of 200MWh-plus to deal with the country's energy crisis. [pdf]

In 2023, a pilot project combining 5 MW solar farm with 2 MW/4 MWh storage reduced diesel consumption by 40% at a remote Brunei telecom station. This success paved the way for ...

BEI Construction has the engineering, electrical and implementation expertise required on energy storage construction projects (BESS) and can deliver battery-based energy storage as part of ...

Helical piers have gained attention as a faster, easier, and clear foundation for battery energy storage projects.
