Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why do you need a solar container unit?

Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere. With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours.

How many households can a solar Container Supply?

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply approx. 32 households with climate-friendly electricity. At a location in Southern Europe it can even be up to 50 households due to the high solar radiation.

Who is solarcont GmbH?

SolarCont GmbH was created through a cooperation between the two successful companies Hilber Solar GmbH from beautiful Tyrol and the company Gföllner Fahrzeugbau und Containertechnik GmbH, which is deeply rooted in Upper Austria. This cooperation makes it possible to develop a completely new type of mobile solar system.

These containers function as a stand-alone energy storage system that is specifically designed to store energy generated by solar panels.

Our containerized energy solution offers notable economic and practical advantages: Minimal civil and site work costs, with system setup requiring ...

The Symtech Solar Battery Energy Storage Cabinet (MEG 100kW x 215kWh) is a fully integrated, PV-ready hybrid energy storage solution designed for both on-grid and off-grid applications.

Engineered for commercial and industrial resilience, this high-density solution delivers massive capacity (215kWh) and robust power (100kW) in a ...

Powered by premium 610W panels, the 100KW Mobile Solar Container from HighJoule delivers maximum energy density in a compact 20ft format. It's optimized for grid-tied setups requiring ...

With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours. Go big with our modular ...

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The ...

Featuring an advanced battery management system (BMS), power conversion system (PCS), liquid cooling, and intelligent energy management (EMS), this energy storage ...

Engineered for commercial and industrial resilience, this high-density solution delivers massive capacity (215kWh) and robust power (100kW) in a single, scalable cabinet. 1. Outdoor high ...

Built with high-quality photovoltaic panels, the system provides reliable 100KW output while incorporating robust storage capabilities to ensure consistent power availability.

CTS 100kW/215kWh LiFePO4 battery energy storage system boosts solar efficiency by 40%, IP54-rated, grid-integrated, trusted by 500+ global sites. Request ROI analysis or technical ...

Our containerized energy solution offers notable economic and practical advantages: Minimal civil and site work costs, with system setup requiring only open flat ground and no ground penetration

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ...
