---

We provide various consulting services for contractors, OEMs, EPCs, and developers for energy storage and solar services. Find out more about our energy storage and solar operations ...

We work with clients across the country, providing full-service due diligence services, from feasibility analysis and design through to implementation, optimization, and ...

Solar PV Mini-Grid systems are custom designed for specific applications and need of the location/consumers. The following factors are generally considered while determining the ...

Our team specializes in designing earthquake-resistant solar-plus-storage systems tailored to your geographical risks and energy ...

LZY Mobile Solar Container System - The rapid-deployment solar solution with 20-200kWp foldable PV panels and 100-500kWh battery storage. Set ...

Design safer buildings with outsourced specialists in earthquake-resistant design. Our remote engineers and structural consultants deliver resilient, code-compliant solutions that protect ...

KMB Design Group is at the forefront of the escalating solar industry, and is considered a leading consulting firm in the renewable energy field providing photovoltaic design and engineering ...

This paper presents the seismic performance of ground-mounted photovoltaic (PV) modules. The seismic performance of the PV module is evaluated for sets of near-field (NF) ...

LZY Mobile Solar Container System - The rapid-deployment solar solution with 20-200kWp foldable PV panels and 100-500kWh battery storage. Set up in under 3 hours for off-grid ...

KMB Design Group is at the forefront of the escalating solar industry, and is considered a leading consulting firm in the ...

NLR research provides the guidance and tools needed to adopt microgrids, leverage distributed energy resources for resilience, and integrate solar PV into smart ...

Our team specializes in designing earthquake-resistant solar-plus-storage systems tailored to your geographical risks and energy needs. Whether you're safeguarding a home, ...

NLR research provides the guidance and tools needed to adopt microgrids, leverage distributed energy resources for resilience, ...

With global seismic activity increasing by 18% since 2020 according to the 2024 Global Seismic Report, earthquake-resistant brackets have become critical for solar projects in vulnerable ...
