-----

The Georgetown Project marks the first of four Alberta projects of Westbridge to receive power plant and BESS approval from the AUC. The approvals allow Georgetown to ...

The Georgetown Energy Storage Project continues to make waves in renewable energy integration, achieving 92% operational efficiency in its latest phase. As cities worldwide seek ...

Westbridge Renewable Energy Corporation announce that its wholly-owned subsidiary, Georgetown Solar Inc., has secured financing to fund its AESO contribution ...

The project would pair a solar PV plant of up to 230MWac/278MWdc with up to 200MWh of battery storage sharing the site and interconnection to the grid. Approval was ...

to announce that its wholly-owned subsidiary, Georgetown Solar Inc. ("Georgetown"), has secured financing to fund its AESO contribution requirement for its flagship project, the ...

The Georgetown Project marks the first of four Alberta projects of Westbridge to receive power plant and BESS approval from the AUC. The approvals allow Georgetown to construct and ...

The expansion project is located in California's Imperial Valley and will add 100 MW of energy storage capacity to the existing 131 MW facility. The new capacity is expected to be fully ...

Deployment: Projects that deploy residential, commercial, and utility scale energy storage systems for a variety of clean energy and clean transportation end uses.

The project would pair a solar PV plant of up to 230MWac/278MWdc with up to 200MWh of battery storage sharing the ...

Westbridge Renewable Energy Corporation announce that its wholly-owned subsidiary, Georgetown Solar Inc., has secured financing ...

The Georgetown Project marks the first of four Alberta projects of Westbridge to receive power plant and BESS approval from the AUC. ...

The Georgetown project demonstrates how advanced energy storage enables renewable adoption, grid resilience, and cost savings. As technology evolves, expect smaller systems ...
