---

A team of researchers at MIT has developed one of the strongest lightweight materials known, by compressing to fuse flakes of the two-dimensional form of carbon known ...

48V 100Ah Lithium Solar Battery 5120Wh, 16 LiFePO4 Cells, 15 Years Life Max. 15000 Cycles, Rack and Wall Mounted, IP54 Waterproof for Solar System, Off-Grid ...

A new material called multiscale reduced graphene oxide could mean faster charging and power delivery than traditional batteries allow.

48V 100Ah Lithium Solar Battery 5120Wh, 16 LiFePO4 Cells, 15 Years Life Max. 15000 Cycles, Rack and Wall Mounted, IP54 Waterproof for Solar System, Off-Grid Energy Storage, Solar ...

Customers find this lithium battery to be of high quality, working well with old inverters and providing better backup than 150ah lead acid batteries. The battery holds power for a long ...

You can check the price history of GRAPHENE 12 Volt 100AH Lithium Ferro Phosphate Inverter Battery, Back Up More Than 180AH Lead Acid ...

MIT physicists observed key evidence of unconventional superconductivity in magic-angle graphene. The findings could lead to the development of higher-temperature ...

MIT scientists were surprised to discover a "chiral superconductor" -- a material that conducts electricity without resistance, and also, paradoxically, is magnetic -- in ...

Highest ever price is INR37,999. Along with deals, coupons & discounts, you can get it at INR19,950. Read our Pricing Disclosure.

You can check the price history of GRAPHENE 12 Volt 100AH Lithium Ferro Phosphate Inverter Battery, Back Up More Than 180AH Lead Acid Battery, Long Life Up to 20 Years, Works with ...

MIT physicists have taken a key step toward solving the puzzle of what leads electrons to split into fractions of themselves. Their solution sheds light on the conditions that ...

Physicists measured how readily a current of electron pairs flows through "magic-angle" graphene, a major step toward understanding how this unusual material superconducts.

MIT physicists identified new multilayered configurations of graphene that can be twisted and stacked to elicit robust superconductivity at low temperatures. The study ...

Physicists at MIT and Harvard University have found that graphene, a lacy, honeycomb-like sheet of carbon atoms, can behave at two electrical extremes: as an insulator, ...

The GRAPHENE 12 Volt 100AH Lithium Ferro Phosphate Inverter Battery is a cutting-edge energy solution designed for longevity and efficiency. With the ability to safely discharge up to ...

MIT physicists report the discovery of electrons forming crystalline structures in a material billionths of a meter thick. The material, rhombohedral pentalayer graphene, joins a ...
