To support this project, it seeks to hire an Owner's Engineer (OE) for the construction of a battery energy storage system (BESS) and ...

The country's energy landscape is currently dominated by fossil fuels, but this new project is expected to increase renewable energy ...

To support this project, it seeks to hire an Owner's Engineer (OE) for the construction of a battery energy storage system (BESS) and associated transmission system ...

The project seeks to integrate three solar photovoltaic generating facilities totalling a 15.1MW capacity and a 10.6MW/21.2MWh ...

Grenada Electricity Services (Grenlec) is searching for consultants to support the construction of a BESS at Maurice Bishop ...

The Public Utilities Regulatory Commission (PURC) of Grenada is inviting expressions of interest (EOIs) for a renewable energy ...

Our geothermal project is currently in its exploration drilling phase. If the exploration is successful, it will prove that Grenada has sufficient natural underground geothermal resources to generate ...

The country's energy landscape is currently dominated by fossil fuels, but this new project is expected to increase renewable energy capacity and reduce electricity generation ...

Provide the solar PV and battery storage IPP market with the opportunity to share critical project-related

information, such as the estimated project duration and estimated plant space ...

Grenada Electricity Services (Grenlec) is seeking consultants to support the development of a solar-plus-storage project at Maurice Bishop International Airport, featuring a ...

The funds will be used to install a 10.6-megawatt battery energy storage system, upgrade Grenada's transmission infrastructure, and integrate the country's first utility-scale solar power ...

Grenada Electricity Services (Grenlec) is searching for consultants to support the construction of a BESS at Maurice Bishop International Airport. The tender details state that ...

Grenada Electricity Services (Grenlec) is seeking consultants to support the development of a solar-plus-storage project at Maurice ...

The energy regulator of Grenada is seeking expressions of interest (EOI) for a solar or solar-plus-storage project at the Caribbean ...

The project seeks to integrate three solar photovoltaic generating facilities totalling a 15.1MW capacity and a 10.6MW/21.2MWh Battery Energy Storage System (BESS), with the ...

The energy regulator of Grenada is seeking expressions of interest (EOI) for a solar or solar-plus-storage project at the Caribbean island nation's main international airport.
