**Do I need a power adapter in Grenada?**

If your devices are compatible with these specifications, you will not need a power adapter. However, if your devices use a different plug type or are not compatible with the voltage in Grenada, you will need a power adapter and/or a voltage converter/transformer.

**What type of power socket is used in Grenada?**

The power sockets in Grenada are of type G. The standard voltage is 230 V at a frequency of 50 Hz. You need a power plug (travel) adapter in Grenada.

**What do Grenada electrical outlets look like?**

When you are going on a trip to Grenada, be sure to pack the appropriate travel plug adapter that fits the local sockets. But what do those electrical outlets look like? In Grenada, type G plugs and sockets are the official standard. Like most former British colonies, Grenada has standardized on the British plug and outlet system.

**Do I need a voltage converter in Grenada?**

The voltage used in Grenada is 230V and the frequency is 50Hz. If this is the same in your own country, you don't need a voltage converter when travelling to Grenada. If the voltage and/or frequency in your country is different, you should check if your devices are dual voltage.

North Americans will need an adapter for the outlets and a transformer for the voltage when traveling to Grenada. North Americans device plugs will not work with the outlet types in ...

The voltage in Grenada is 230 volts, and the frequency is 50 Hz. It is important for travelers to bring a power adapter that supports type G sockets when traveling to Grenada.

Grenada uses power plugs and sockets of type G, with a standard voltage of 230 V and a frequency of 50 Hz. If your devices are compatible with these ...

North Americans will need an adapter for the outlets and a transformer for the voltage when traveling to Grenada. North Americans device plugs will not ...

Here's all you need to know about Grenada plug, power outlets, travel adapter needed for sockets, electricity voltage, and frequency.

In Grenada, type G plugs and sockets are the official standard. Like most former British colonies, Grenada has standardized on the ...

Grenada operates on a standard voltage of 230V and a frequency of 50Hz. Ensure your devices are compatible with this voltage and frequency. The common plug type is G, so bring a ...

In Grenada, type G plugs and sockets are the official standard. Like most former British colonies, Grenada has standardized on the British plug and outlet system.

Yes, you need a power plug travel adapter for sockets type G in Grenada. You also need a voltage converter. Be extra careful with certain devices ...

Need a travel adapter for Grenada? Find out everything about plugs, outlets, and voltage differences. Avoid charging issues!

Yes, you need a power plug travel adapter for sockets type G in Grenada. You also need a voltage converter. Be extra careful with certain devices because of the difference in frequency.

Grenada uses power plugs and sockets of type G, with a standard voltage of 230 V and a frequency of 50 Hz. If your devices are compatible with these specifications, you will not need ...

Grenada uses electrical outlets and power plugs of type G (see images). If your country uses the same electrical outlets and power plugs, you don't need a travel adapter.

Do I Need A Power Adapter For Grenada? Electricity in Grenada - Voltage and Frequency Frequently Asked Questions

Grenada uses power outlets and plugs of type G. Take a look at the picture below to see what this plug and power socket looks like:

1. Type G- From British origin, mainly used in the United Kingdom, Ireland, Malta, Malaysia and Singapore, but also in quite a few other countries. No other plug types fit into an outlet of type G.
