Does Vietnam have new feed-in tariffs for solar power?

April 2025 | Southeast Asia Impact Alliance Vietnam is taking another step toward modernizing its renewable energy sector by unveiling updated feed-in tariffs (FiTs) for solar power, with a notable emphasis on encouraging battery energy storage systems (BESS).

What are the new fits for solar power projects?

These updated FiTs aim to enhance grid reliability while aligning with the nation's broader energy transition strategy. The most significant development in this update is the introduction of differentiated tariffs for solar power projects that incorporate battery storage.

How effective is India's auction-based solar system?

India's auction-based solar program has yielded over 59GW of installed capacity, with tariffs dropping from USD9.72¢/kWh in 2014 to a weighted average of just USD3.04¢/kWh in 2024. The model has proven effective even in smaller markets.

With global costs for solar, wind, and battery storage systems continuing to fall, Vietnam could replace fixed FiTs with transparent auctions, enabling clean energy ...

HANOI: Vietnam is revising its energy plans to focus more on large solar farms and less on reliance on coal and natural gas. The fast-growing economy now aims to get 16 ...

HANOI: Vietnam is revising its energy plans to focus more on large solar farms and less on reliance on coal and natural gas. The fast ...

Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing ...

Vietnam's new energy plan, to be finalized in the coming weeks, will focus more on solar farms and less on coal and natural gas.

By 2025, half of Hanoi's office buildings will feature rooftop solar panels, with a goal to equip all such buildings by 2030. The city announced this new strategy as part of a ...

On March 12, 2020, Hanoi Electricity Corporation (EVN Hanoi) and Son Ha Group signed a cooperation agreement to develop rooftop solar power in Hanoi city.

Vietnam is taking another step toward modernizing its renewable energy sector by unveiling updated feed-in tariffs (FiTs) for ...

Vietnam is taking another step toward modernizing its renewable energy sector by unveiling updated feed-in tariffs (FiTs) for solar power, with a notable emphasis on ...

Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing location-based pricing and, for the first time, ...

Hanoi, Vietnam - October 11, 2024 - Hawee Energy JSC and AIKO have officially entered into a strategic partnership following the signing of a memorandum of understanding ...

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of ...
