-----

The internal PCS is designed with an IP65 protection grade, equipped with an intelligent ambient temperature control system and a fire control system. Adopting the system-safety design ...

Proven Battery Management System (BMS): achieves climate-proof operation over the widest range of hot/cold and wet/dry conditions. Fire ...

The protection and monitoring functions of the battery system are realized by the BMS battery management system. The BMS system of the battery system is managed in three levels, ...

This pioneering system guarantees efficient energy storage, management, and distribution, providing answers to numerous power challenges that are prevalent in today's world.

The internal PCS is designed with an IP65 protection grade, equipped with an intelligent ambient temperature control system and a fire control ...

This pioneering system guarantees efficient energy storage, management, and distribution, providing answers to numerous power challenges that ...

The product adopts a modular design and consists of 1 main control box and 10 battery boxes. It is suitable for a variety of application scenarios such as industrial and commercial energy ...

Product Features: Battery Technology: Utilizes mature, high-efficiency, long-life large-capacity lithium iron phosphate batteries. Battery Management: Equipped with advanced intelligent ...

Proven Battery Management System (BMS): achieves climate-proof operation over the widest range of

hot/cold and wet/dry conditions. Fire protection and HVAC: built-in to optimize safety ...

The high voltage battery system supports both two-level and three-level architectures. The three-level configuration can be built in cabinet-style or container-style structures, enabling flexible ...

Customizability: Rack-mounted high-voltage lithium batteries can be customized to meet specific needs. You can select battery capacity, voltage, and other parameters to meet the needs of ...

These enable seamless communication with the high-voltage box, PCS/UPS, or EMS, supporting data exchange and control for the energy storage battery management system while ensuring ...

Customizability: Rack-mounted high-voltage lithium batteries can be customized to meet specific needs. You can select battery capacity, voltage, and other parameters to meet ...

It features a three-level battery management system that ensures robust protection against overcharging, over-discharging, and over-voltage. The modular design enables easy ...
