Discover how Higher Wire shipping container solar systems provide reliable, off-grid power for remote worksites and projects.

We do that through our efficient plug & play solar power units that leverage a central part of the global infrastructure - the standardized shipping container.

Equipped with 192 solar panels, the vessel is the first of its kind capable of hybrid propulsion using solar power, supplying energy to both onboard systems and high-voltage propulsion.

Dutch solar technology company Wattlab and Germany's HGK Shipping have unveiled the Blue Marlin, the world's first hybrid solar ...

Dutch solar technology company Wattlab and Germany's HGK Shipping have unveiled the Blue Marlin, the world's first hybrid solar-powered inland cargo vessel. Officially ...

In what's presented as a significant technical milestone for sustainable inland shipping, the vessel's 192 solar panels will provide ...

HGK Shipping has taken a major step toward greener inland transport with the launch of Blue Marlin, the world's first inland cargo vessel equipped with a hybrid solar ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

HGK Shipping has taken a major step toward greener inland transport with the launch of Blue Marlin, the

world's first inland cargo ...

In what's presented as a significant technical milestone for sustainable inland shipping, the vessel's 192 solar panels will provide power to both the onboard and propulsion ...

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel ...

This ambitious endeavor transforms a standard 20-foot shipping container into a high-capacity, modular, and off-grid power system capable of supporting diverse energy needs.

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy when regulatory or client ...

Sustainable initiatives by multinational corporations and public agencies are fostering demand for portable, scalable solar solutions capable of energy generation in remote ...
