In November 2024, Honduras made waves with its 75MW/300MWh battery storage tender - the energy equivalent of building a 4-hour power bank for 75,000 Honduran households [1].

Honduras has launched a consultation on regulatory changes to its electricity network to help better integrate energy storage, which it said is key to maintaining the stability, ...

Windey, in partnership with Honduran power company EQUINSA, has secured the EPC contract for Honduras' 75MW/300MWh energy storage project, marking its first ...

This project, selected through an international tender with six proposals, will be the largest energy storage system in Central America once operational by the end of 2025.

Six separate companies have submitted bids to build the 4-hour BESS project, and it will be implemented next year after evaluation and award phases are completed, Carbajal ...

A contract worth \$50.2 million has been awarded to the Chinese-Honduran consortium Windeny-Equinsa for the construction of a ...

The power station, with a 300MW system, is claimed to be the largest compressed air energy storage power station in the world, with highest efficiency and lowest unit cost as well.

Windey, in partnership with Honduran power company EQUINSA, has secured the EPC contract for Honduras' 75MW/300MWh ...

The project, a national key initiative of Honduras, will significantly enhance the stability of Honduras' power
