In December 2022, the European Resilience Initiative Center collected donations to purchase eight power stations with an overall 12,000 watt capacity for Ukrainian families ...

In January 2025, Ukrainian energy giant DTEK committed EUR140 million to deploy six battery storage facilities across multiple regions. The Fluence-powered systems will provide:

A large number of persons or things: "For many are called, but few are chosen" (Matthew 22:14).

The project is split between six energy storage sites across Ukraine and will provide 400 MWh of dispatchable energy - enough to supply short-term power for 600,000 homes ... provide ...

Many, innumerable, manifold, numerous imply the presence or succession of a large number of units. Many is a popular and common word for this idea: many times. Numerous, a more ...

OverviewHistoryGenerationImports, storage, transmission and distributionPower system reformsEconomicsElectricity production fell from 296 TWh in 1991 to 171 TWh in 1999, then increased slowly to 195 TWh in 2007, before falling again. In 2014, consumption was 134 TWh after transmission losses of 20 TWh, with peak demand at about 28 GWe. 8 TWh was exported to Europe. In 2015 electricity production fell to about 146 TWh largely due to a fall in anthracite coal supplies caused by the War in Donbass

Many can be traced back to the Welsh word mynych meaning "frequent." To get many of something, you do something frequently, or often, like having many miles on a car because ...
