## How much does a 5G base station cost?

Setting up a 5G base station is expensive, with costs ranging from \$100,000 to \$200,000 per site. This price includes hardware, installation, site rental, and maintenance. Urban areas often have higher costs due to land prices and infrastructure challenges.

## When did Zain Kuwait start deploying 5G networks?

Zain Kuwait began deploying 5G networks in 2018. After two years of development, 5G services have entered a phase of rapid growth. The user base continues to expand significantly, with a steady increase in the proportion of 5G traffic. This growth has driven positive revenue and profit gains for the operator.

## Who is the first operator to commercialize 5G networks in Kuwait?

Zain was the first operator to commercialize 5G networks in Kuwait. Zain provided the most extensive 5G coverage and best services owing to its focus on network construction. Zain has reached 100 percent coverage within six months of the commercial launch.

## How many mobile connections are there in Kuwait?

GSMA Intelligence's numbers indicate that mobile connections in Kuwait were equivalent to 182.2 percent of the total population in January 2024. The number of mobile connections in Kuwait increased by 279 thousand (+3.7 percent) between the start of 2023 and the start of 2024. Kuwait has three mobile operators: Ooredoo, Zain and STC.
