How much does a container home cost?

Most container homes cost between \$150 and \$350 per square foot (about the same as the cost of a standard ADU). Ordering a used shipping container is usually less expensive and is more sustainable than buying a brand-new one. Containers come in standard sizes so they can be easily transported on roads and cargo ships.

How much does a multi-unit container home cost?

For a larger modular multi-unit container home, measuring roughly 1,000 to 1,600 square feet, the budget can reach \$150,000 to \$300,000 or more depending on finishes, customization, and whether you incorporate off-grid systems like solar or rainwater catchment.

How much does a shipping container cost?

A shipping container costs \$1,700 to \$8,200 on average, depending on the size, condition, and features. A single container can be used to build a tiny home, or multiple containers can be stacked on top of each other or placed side-by-side to create a larger home. Shipping containers come in 10', 20', and 40' lengths.

How much does it cost to build a tiny shipping container home?

Excavation costs \$1,000 to \$2,500 to dig a foundation for a tiny home. Grading land costs \$500 to \$1,000 to level a small area or contour the slope for proper drainage. A building permit costs \$500 to \$2,000 for new construction. Many cities do not allow tiny shipping container homes.
