Before you overhaul your entire network, let's dig into why your Huawei setup might be failing and whether upgrading your switching infrastructure is the only way out.

The DBS5900 can meet the needs of industry users for wireless broadband access and multimedia critical communication, and obtain better coverage and user experience. The ...

The DBS5900 can meet the needs of industry users for wireless broadband access and multimedia critical communication, and obtain better ...

DBS3900 Dual-Mode Base Station is the fourth generation base station developed by Huawei. It features a multi-mode modular design and supports three working modes: GSM mode, ...

Huawei's base stations, such as the DBS5900 and DBS3900, are advanced wireless access devices designed to support various network technologies, including 4G LTE and 5G NR.

Huawei campus switches are ideal for building future-proof campus networks with simplified management, high reliability, and service intelligence, ...

Huawei 5G-A smart base stations redefine the intelligent standards of communication infrastructure through the "AI chip + digital twin + multi-agent" technology stack.

Discover Huawei base station types, mechanical properties, and best practices for optimal deployment. Explore specifications, performance insights, and real-world applications ...

upgrading your switching ...

Huawei campus switches are ideal for building future-proof campus networks with simplified management, high reliability, and service intelligence, across industries such as enterprises, ...

At the heart of this transformation lies Huawei Base Station Ethernet Switching, a technology engineered to handle high-density data traffic while maintaining seamless ...

At the heart of this transformation lies Huawei Base Station Ethernet Switching, a technology engineered to handle high-density data traffic while maintaining seamless ...

A base station, also known as an eNodeB (for 4G LTE) or gNodeB (for 5G NR) in Huawei's terminology, is a piece of equipment that facilitates wireless communication between ...

MAXSCEND RF switches have passed Huawei base station equipment validation and are integrated into its Massive MIMO antenna arrays. This enables narrow beam ...
