-----

We are one of the few companies that produce solar structures using CNC machinery and high-quality raw materials in Iran. This advantage leads to reduced costs, fast delivery, and high ...

It supports 2.5kWh battery expansion packs and can support up to 6 power packs, reaching 17.5kWh, to provide a stable power supply for various household appliances.

Photovoltaic containers have a structure similar to shipping containers, making them easy to transport and deploy, enabling rapid installation of ...

Feature highlights: This 220V Portable Mobile Digital Power Supply is designed for outdoor emergency energy storage, featuring a lithium battery with a capacity range of 252WH-756WH ...

This post explores the current state of Iran's new energy market, recent policies, key case studies in solar PV and energy storage, and the promising yet challenging road ahead.

Photovoltaic containers have a structure similar to shipping containers, making them easy to transport and deploy, enabling rapid installation of solar photovoltaic power generation systems.

Pars Today - An Iranian knowledge-based company has successfully localized the Energy Bag, enabling individuals to use clean solar energy anywhere.

This article explores the project's technical breakthroughs, its impact on Iran's power sector, and why hybrid solar-storage solutions are becoming essential for modern grids.

Technological advancements are dramatically improving solar storage container performance while reducing

costs. Next-generation thermal management systems maintain optimal ...

TEHRAN (ANA)- The researchers of an Iranian knowledge-based company succeeded in making an "energy bag" which is actually a ...

Imagine a world where solar panels work around the clock and wind turbines never waste a breeze. That's exactly what Iranian new energy storage box manufacturers are making possible.

TEHRAN (ANA)- The researchers of an Iranian knowledge-based company succeeded in making an "energy bag" which is actually a micro and portable solar power plant ...

This post explores the current state of Iran's new energy market, recent policies, key case studies in solar PV and energy storage, ...
