What is the wholesale market like in Kosovo?

The wholesale market in Kosovo*is still characterised by the bulk supply agreementbetween the incumbent producer Koso-vo Energy Corporation (KEK) and the universal supplier KESCO which is an obstacle to the development of competition. Fur-thermore,KEK is providing electricity to network operators to cover losses.

What is Kosovo's Energy use?

Kosovo's energy use is driven by households,primarily for wintertime heating. Kosovo's housing stock is largely inefficient and uninsulated.

Is the distribution of electricity in Kosovo normalised in 2024?

The distribution and supply of electricity in the north part of Kosovo*is normalised in 2024following completion of all nec-essary contracts between the electricity supply company Elek-trosever,licensed for supply of customers in four municipalities in the Northern Kosovo*,KEDS and KOSTT.

Did Kosovo transpose the electricity integration pack-Age (EIP)?

Kosovo*has not yet transposedthe Electricity Integration Pack-age (EIP) but the process of drafting amendments to the Law on Energy,Law on Electricity and the Law on Energy Regulator is advancing. As the legal deadline for the transposition expired on 31 December 2023,an infringement procedure has been initiated by the Secretariat.
