---

The Government of Burkina Faso has signed a Public-Private Partnership (PPP) agreement with a local developer and a Dutch clean energy investment firm to develop a major solar and ...

That's Lome today - the new frontier for energy storage solutions in Africa. As the demand for reliable power grows faster than mangoes in rainy season, let's explore the key ...

The 100 MW/400 MWh Luna Battery Storage Project is now operational and providing energy to Clean Power Alliance customers while strengthening ...

Since 1989, AES has been powering California and supporting the state's grid reliability needs. We are committed to a safe and responsible transition to clean energy in California.

You know, when we talk about renewable energy in Africa, most people immediately think of solar farms in the Sahara or wind projects in Kenya. But here's the thing - the Lome photovoltaic ...

By delivering highly engineered Energy Storage solutions, RWE manages grid stability, reduces renewable curtailment, and provides Distributed Energy Resources (DERs) to better align ...

The World Bank Group, Abu Dhabi Future Energy Company PJSC, and the Government of Uzbekistan have signed a financial package to fund a 250-megawatt solar photovoltaic plant ...

This energy storage station features advanced modular design and battery management technologies. It offers high-capacity energy storage and energy conversion efficiency, tailored ...

Luna Storage and LAB are standalone lithium-ion battery storage projects in Lancaster, Los Angeles County, California. These projects store clean energy for use during periods of high ...

Lome's team created a hybrid system where excess heat from battery charging gets stored in molten salt. Result? 18% efficiency boost in combined heat/power applications.

The 100 MW/400 MWh Luna Battery Storage Project is now operational and providing energy to Clean Power Alliance customers while strengthening grid reliability.

Luna Storage and LAB are standalone lithium-ion battery storage projects in Lancaster, Los Angeles County, California. These projects store clean ...

By delivering highly engineered Energy Storage solutions, RWE manages grid stability, reduces renewable curtailment, and provides Distributed ...
