ManThink's outdoor LoRaWAN gateway features IP67-rated protection, 4G/Wi-Fi/Ethernet backhaul, and multi-band support. Ideal for smart ...

Four-Faith's F8L10GW is a wireless communication base station that is based on LoRaWAN and LinkWAN protocol. It plays the role of transmitting data from LoRaWAN terminals of various ...

Bundled for easy deployment, the solution includes a Conduit with a LoRa mCard™, IP67 enclosure and LoRa antenna to improve outdoor range. ...

In addition to the two external LoRa antennas, the B.One Gateway outdoor also uses an external LTE antenna to ensure the best possible connection to the backend.

Four-Faith's F8L10GW is a wireless communication base station that is based on LoRaWAN and LinkWAN protocol. It plays the role of ...

MultiConnect™; Conduit(TM) IP67 Base Station is a ruggedized IoT gateway solution, specifically designed for outdoor LoRa™; public or private ...

Designed for easy deployment, the solution includes an IP67 enclosure, LoRa antenna to improve outdoor range and Ethernet or optional 4G-LTE backhaul. It can be deployed as part of an ...

Built for the toughest environments, the MultiTech Conduit™; IP67 Base Station delivers secure, reliable LoRaWAN™; connectivity for outdoor and industrial IoT deployments.

MultiConnect™; Conduit(TM) IP67 Base Station is a ruggedized IoT gateway solution, specifically designed for outdoor LoRa™; public or private network deployments.

These enterprise-grade outdoor LoRaWAN gateways offers a simple, quick and plug-and-play experience and are compatible with Kerlink best-in-class network performance monitoring and ...

ManThink's outdoor LoRaWAN gateway features IP67-rated protection, 4G/Wi-Fi/Ethernet backhaul, and multi-band support. Ideal for smart cities, farms, and remote industrial ...

MultiTech Conduit® IP67 200 Series Base Station is a ruggedized IoT gateway solution, specifically designed for outdoor LoRa®; public or private network deployments.

Bundled for easy deployment, the solution includes a Conduit with a LoRa mCard™, IP67 enclosure and LoRa antenna to improve outdoor range. It also provides a choice of cellular ...

This flexible solution provides durable, low-power, low-power, wide area network connectivity in support of M2M and IoT applications for both LoRa service providers and individual ...

Designed for easy deployment, the solution includes an ...
