-----

Awardees include Iberdrola (12 projects totalling 2.4 GWh), Atlantica (8 projects, 1.5 GWh), and Rolwind (2 projects, 1.2 GWh).

The final results and resolution confirm financing for 133 storage projects with an aggregate power capacity of nearly 2,400 MW and a cumulative energy capacity of ...

The utility combines battery storage, pumped hydro, and thermal storage technologies, including 990 MWh from reversible pumped hydro alone, positioning the ...

The selected initiatives cover a range of advanced storage technologies designed to enhance grid flexibility and support greater integration of renewable generation across Spain.

Spain has launched an ambitious EUR700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage. It ...

The bulk of the EUR814 million (\$956 million) funding envelope will be directed to co-located energy storage projects, with standalone batteries receiving the next largest share.

With over 3.5 GWh of installed storage capacity worldwide, the company has built a solid foundation to support this transition. Madrid: Risen Energy's strategic hub outside China. ...

Spain has launched an ambitious EUR700 million (around \$796 million) program to increase its energy storage capacity. This plan will ...

With Spain aiming for 22.5GW of energy storage by 2030 [8], Madrid sits at the heart of this transformation. Let's unpack what's driving this revolution and why your business ...

As of early 2025, Spain has roughly 1 GWh of grid-scale storage under construction, according to industry sources. This new wave ...

Four of the ten thermal storage sites to receive backing will be developed in Castilla y Le#243;n, another three will be in Castilla-La Mancha, and the rest are in the Basque ...

With over 3.5 GWh of installed storage capacity worldwide, the company has built a solid foundation to support this transition. Madrid: Risen Energy"s ...

As of early 2025, Spain has roughly 1 GWh of grid-scale storage under construction, according to industry sources. This new wave of funding could accelerate the build-out, ...
