-----

In the last few years, we've advanced installing short-duration storage to support the generation of renewable energy, but we still need to develop ...

Malta has announced the closing of a funding round provided by a group of investors, including Siemens Energy Ventures, Alfa Laval, Breakthrough Energy Ventures, ...

"Utility-scale battery storage is a game changer for the electric grid. It provides the flexibility and resilience needed to accommodate increasing amounts of renewable energy, reducing ...

Malta's innovative thermoelectric energy storage system offers a flexible, cost-effective and scalable solution for the storage of energy over long periods of time.

"BBVA is opening the gates for deployment of Malta's long-duration energy storage - technology that is crucial to build energy resilience in Iberia and Europe at large."

Malta Inc. has announced a partnership with BBVA to support its long-duration thermal energy storage tech, a technology developed by Malta Inc. The agreement establishes ...

Malta's product line range offers flexible storage and grid reliability solutions for renewable power generation and the replacement needs of utility scale fossil gas and coal plants

It will be based on a technology that Malta Inc. claims can enable cost-effective energy storage for applications requiring anything from 8-hour to 200-hour (or about eight-day) ...

Malta's utility-scale, long-duration energy storage system uses steam-based heat pump technology to deliver

dispatchable, cost-effective energy.

"BBVA is opening the gates for deployment of Malta's long-duration energy storage - technology that is crucial to build energy ...

In the last few years, we've advanced installing short-duration storage to support the generation of renewable energy, but we still need to develop long-duration storage technologies.

Malta's grid-scale, long-duration energy storage system helps governments, utilities, and grid operators transition to low-cost, carbon free renewable energy while ...

Malta's grid-scale, long-duration energy storage system helps governments, utilities, and grid operators transition to low-cost, carbon ...

It will be based on a technology that Malta Inc. claims can enable cost-effective energy storage for applications requiring anything ...
