---

Lights Systems Namibia (LSN) was recently appointed to install a 244kWp Solar PV system at the head office of the National Petroleum Corporation of Namibia (PTY) LTD ...

HOPSOL Africa is a technology leader for on- and off-grid solar power plants, fuel save controllers as well as solar diesel hybrid systems at utility scale (e.g. mining solutions).

Namibia has been named Africa's most authentic tourism destination by the African Tourism Board. The country appeals to travellers seeking immersive, conservation-focused ...

Namibia is an arid country covering more than 320,000 square miles. The Caprivi Strip juts out to the northeast to touch both Zimbabwe and Zambia. Namibia has four distinct ...

Namibia gained independence from South Africa in March 1990, following the South African Border War. However, Walvis Bay and the Penguin Islands remained under South African ...

SolarSaver manages over 170 installations in Namibia and South Africa - offering both grid-tied and off-grid systems. Considerable investment backing allows the company to offer a unique ...

After democratic elections were held in 1989, Namibia became an independent state on March 21, 1990. To date, Namibia boasts a proud record of uninterrupted peace and ...

Lights Systems Namibia (LSN) was recently appointed to install a 244kWp Solar PV system at the head office of the National Petroleum ...

Only on 21 March 1990, Namibia gained independence from South Africa. The country's name is derived from the Namib Desert. With an area of 824,292 km<sup>2</sup> (318,260 sq. mi.), Namibia is 1.5 ...

Namibia, officially the Republic of Namibia, is a country in Southern Africa. Its borders include the Atlantic Ocean to the west, Angola and Zambia to the north...

From hybrid systems that prioritise solar power and use the grid only as backup, to fully off-grid setups for total energy independence, our solar solutions are designed for long-term ...

In a sparsely populated country like Namibia, decentralised energy solutions will be much faster and less expensive to deploy than the grid, allowing people living in hard-to-reach ...

Namibia is a mashup of abundant wildlife, impeccably wild landscape and cultural riches. This guide promises a perfectly planned visit.

With parts of the plant already operational and expansion underway, Namibia is firmly on track to meet its ambitious renewable energy targets. As the country continues to ...

Namibia is in southern Africa and borders the Atlantic Ocean to west, Angola and Zambia to the north, Botswana to the east, and South Africa to the south and east. Namibia ...

With 300+ sunny days annually, Namibia's solar potential is unmatched. The government aims to generate 70% of electricity from renewables by 2030, creating huge BESS opportunities:
