Hithium unveiled the world's first eight-hour native battery energy storage solution, the ?Power8 6.9MW/55.2MWh, at Eco-Day. Built on an eight-hour long-duration energy ...

One of the US's largest solar + battery storage projects is now fully online in Mojave, California.

California is adding battery storage at a pace never seen before as we continue our work to build the grid of the future. The key to a cleaner, more reliable power grid is ...

Much of that is new battery energy storage, which captures and stores electricity for later use. In fact, batteries have been transformative for California, state officials say.

Much of that is new battery energy storage, which captures and stores electricity for later use. In fact, batteries have been ...

Los Angeles, Calif. - Clean Power Alliance (CPA), the nation's leading green power provider and California's largest community choice energy aggregator, continues to ...

These innovative CO2 batteries from Energy Dome promise long-duration energy storage for the grid, and reliable 24/7 clean power for data centers.

A new long duration energy storage system that deploys molten tin for heat transfer has received \$20 million in Series A Plus funding.

In 2025, capacity growth from battery storage could set a record as we expect 18.2 GW of utility-scale battery storage to be added to the grid. U.S. battery storage already achieved record ...

From iron-air batteries to molten salt storage, a new wave of energy storage solutions is set to unlock resilience for tomorrow's grid.

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy ...
